#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This Action is responsive to Applicant's Amendment filed 11/15/2006. Applicant's new drawing filed for replacing Fig. 13 is acknowledged and Examiner's objection to Fig. 13 is hereby withdrawn. After further reviewing the claimed subject matter as described in the claims, Examiner decided to present this Action a Restriction Election.
2. Restriction to one of the following six inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6 and 19-21, drawn to file archiving or backup, classified in class 707, subclass 204.
  - II. Claims 7-12, drawn to query formulation, input preparation or translation, classified in class 707, subclass 4;
  - III. Claims 13-16, drawn to generating database or data structure, classified in class 707, subclass 102.
  - IV. Claims 17-18, drawn to manipulating data structure, classified in class 707, subclass 101.
  - V. Claims 22-25, drawn to pattern matching access.
  - VI. Claims 26-29, drawn to query augmentation and refining, classified in class 707, subclass 5.
3. The inventions I, II, III, IV, V and VI are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I is related to storing a file to a database of files.

Invention II is mainly related to retrieving a file from a database using file identification.

As for invention III, it is about creating a hash authority data structure.

The key element of invention IV is for accessing and updating a data structure.

Concerning invention V, the invention is mainly for searching a data structure for a value matching a verification hash value.

Finally, invention VI specifically retrieves a file from a database using a random number generator.

Because these inventions are distinct and related to different art sub-classifications, restriction for examination purposes as indicated is proper. Also please be advised this election/restriction does not preclude any further election/restriction of claim groups in each specific art above.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is reminded that the reply to this restriction election to be completed must be include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).
